The Gender Equity Program **educates women about their rights at home, at work,** and in society. The program is working to expand women's access to justice and human rights, while combating gender-based violence. Dowry has become one of the major causes behind the crime and torture towards women. The webinar includes Crime against women, Bailable and non bailable offences, Dowry prohibition act and IPC Section. Dowry is one of India's ancient evil social practices. It is something, unfortunately, practised across all communities in India. The societal

mindset regarding dowry is very rigid and the practice and the casualties related to it has grown over the years. It has turned into a national crime in which women of all classes have suffered.
