

# LOURDES MATHA COLLEGE OF SCIENCE AND TECHNOLOGY

Kuttichal, Thiruvananthapuram

NSS Unit: 343

<b>Date:</b> 10/2/2026	<b>No. of volunteers participated:</b> 50
<b>Program</b>	Mock drill for fire and safety
<b>Highlights of the program</b>	<p>A fire and rescue mock drill was conducted in the college campus by the Kerala Fire and Rescue Services from the Kattakada Fire Station with the objective of creating awareness among students and staff regarding fire safety measures and emergency evacuation procedures. The drill aimed to educate the college community on how to respond effectively during fire emergencies and minimize potential risks. The fire and rescue team conducted a live demonstration showing how to extinguish a fire using different types of fire extinguishers. Students and staff were given an opportunity to practice using fire extinguishers under the supervision of fire officers. A simulated emergency scenario was created in which a fire outbreak was assumed inside a building. Following the emergency alarm, Students and staff evacuated the building in an orderly manner through designated exits, Volunteers guided participants towards safe assembly points, The fire force team demonstrated rescue operations and emergency response techniques. The mock drill significantly enhanced the awareness and preparedness of the college community regarding fire emergencies. Participants gained practical knowledge about fire prevention, fire fighting techniques, and evacuation procedures, which will help in ensuring safety during real-life emergencies.</p>
